GREEN SLIMED POPCORN

Ingredients

1 regular bag microwave popcorn
(If you choose to air pop the popcorn you need to add a salt as it won't taste as good without the sweet/salty combo.)
1 1/4 C. white chocolate coating discs
Americolor's Neon Green Food Coloring Gel

Instructions

- 1) Place popcorn bag in microwave and while it is popping, place the coating discs in a microwave safe bowl.
- 2) When popcorn bag is ready, remove it and place chocolate discs in microwave.
- 3) Melt for one minute, then stir whether it looks like it is melted or not (this keeps it from scorching).
- 4) Melt it for another 30 seconds, then stir again.
- 5) If it needs any more time, microwave it in 10 second intervals. Remove and stir until smooth.
- 6) Add green food coloring gel until you get the color of green you want.
- 7) Place warm popcorn in large bowl, then pour the melted green chocolate over the popcorn and toss gently over and over until you have completely coated the popcorn.
- 8) Place a sheet of parchment paper on a large baking sheet and pour the chocolate covered popcorn out on the pan. Let cool until the chocolate is firm.
